

**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

Application of Southern California Edison Company (U 338-E) For Authority to, Among Other Things, Increase Its Authorized Revenues For Electric Service in 2006, And to Reflect That Increase in Rates.

Application 04-12-014  
(Filed December 21, 2004)

Investigation on the Commission's Own Motion into the Rates, Operations, Practices, Service and Facilities of Southern California Edison Company.

Investigation 05-05-024  
(Filed May 26, 2005)

**ADMINISTRATIVE LAW JUDGE'S RULING  
ADOPTING MODELING PROCEDURES**

**1. Summary**

This ruling adopts procedures governing the production of computer model runs using Southern California Edison Company's (SCE's) results of operations (RO) model to generate tables needed for decision support.

**2. Background**

The Commission relies on the Energy Division to produce RO model runs that reflect and support the Administrative Law Judge's (ALJ's) proposed decision, (PD), any alternate decision, and the Commission's final decision in general rate cases (GRCs). In SCE's test year 2003 GRC (A.02-05-004, et al.), the Energy Division required SCE's and ORA's assistance to produce the model runs needed for decision support. To avoid the possibility that a party would gain an unfair advantage through obtaining information about the PD or any alternate

decision prior to public issuance, the Assigned Commissioner and the ALJ established procedures governing the production of computer model runs in that proceeding. The Assigned Commissioner's April 30, 2003 Ruling and the June 4, 2003 ALJ Ruling established procedures that, among other things, required SCE and ORA modeling representatives, who assisted Energy Division, to comply with a Protective Order. The Protective Order governed the use of protected materials, including confidential written or oral communications from the Commission's Energy Division or ALJ Division relating to the contents of the PD or any alternate decision prior to public issuance.

### **3. Modeling Procedures for this Proceeding**

As in the last GRC, SCE and ORA have utilized an RO model to present their revenue requirement recommendations in this proceeding. For decision support, Energy Division will utilize the model that SCE and ORA have used.

While Energy Division finds the model to be reasonably accessible, SCE and ORA have the most experience with the model. Depending on the resolution of issues affecting the revenue requirement in this proceeding, it may become necessary for Energy Division to request assistance from SCE and/or ORA personnel in running the model for decision support. Accordingly, it is necessary to establish procedures that assure the requisite fairness and confidentiality of the RO modeling process. Attached to this Ruling are procedures based on those established in A.02-05-004 et al., as described above. Attachment 1 to this Ruling sets forth modeling procedures, and Attachment 2 sets forth the attendant Protective Order. Their purpose is to assure the confidentiality of the Commission's deliberative process should it become necessary to allow representatives of parties to this proceeding to gain access to

information about the proposed decision or any alternate decision prior to public issuance.

The modeling procedures and attendant protective order are adopted by this ruling. They shall govern the RO modeling process that will be administered by the Energy Division. The procedures require that if SCE and/or ORA provide assistance to Energy Division, they would designate modeling representatives who would abide by the Protective Order until after issuance of a final Commission decision that adopts SCE's TY 2006 revenue requirement.

**IT IS RULED** that in order to assure the confidentiality of the Commission's deliberative process, the modeling procedures set forth in Attachment 1 to this ruling, and the attendant protective order set forth in Attachment 2 to this ruling, are hereby adopted.

Dated July 22, 2005, at San Francisco, California.

### **RESULTS OF OPERATIONS (RO) MODELING PROCEDURES**

Upon request of the Energy Division Director or his designee(s), Southern California Edison Company (SCE) and/or the Office of Ratepayer Advocates (ORA) will provide all necessary assistance to the Energy Division in running the RO model used by SCE in A.04-12-014 et al. to produce tables required for the proposed decision, any alternate decision, and the final Commission decision. The following requirements shall govern the modeling process:

Model run(s) shall be performed at the Commission offices under the supervision, oversight, and control of the Energy Division Director and his designee(s).

Model run(s) shall be performed using computer hardware, software, and media installed or placed in the Commission Offices. All such hardware, software, and media, and all related notes, worksheets, workpapers and computer output, shall remain in the custody of the Energy Division Director or his designee(s), and shall not be removed from the Commission Offices until 30 days after issuance of a final Commission decision which incorporates the model run, provided, however, that to the extent needed for issuance of the decision and issuance of supporting workpapers, media, notes, worksheets, and computer output may be released on and after the date of issuance of the proposed or alternate decision.

Before obtaining access to any information contained in or pertaining to the draft proposed decision or any alternate decision (prior to the issuance of a final decision adopting SCE's test year 2006 revenue requirement in A.04-12-014, et al.), each employee, agent, or representative of SCE and/or representative of ORA involved in the modeling shall sign a

certificate assuring compliance with the protective order attached hereto.

The Energy Division Director or his designee(s), shall determine that each SCE employee, agent, or representative and representative of ORA who receives access to information about the contents of the proposed decision and any alternate decision has first signed a certificate of compliance with the protective order.

As soon as practicable after the date of issuance of the proposed decision and, if applicable, alternate decision, and no later than seven days after the date of such issuance, Energy Division, and if necessary with the assistance of employees, agents, or representatives from SCE and/or representative of ORA having signed a certificate of compliance with the protective order, shall serve workpapers associated with this modeling upon each party of record making prior written request for them. Workpapers associated with the model run supporting the ALJ's proposed decision shall be designated Late-Filed Exhibit 900. If it is necessary for Energy Division to prepare and issue an alternative set of workpapers in connection with one or more alternate decisions, Late-Filed Exhibits 901-905 are reserved for this purpose. Workpapers may be served in electronic form. To the extent that Energy Division believes that the workpapers would contain confidential information, it will consult with SCE and, if necessary, SCE may file a motion for a protective order to address or limit the parties or individuals who may receive the workpapers. The protective order attached hereto is only designed to prevent disclosure of confidential information prior to the issuance of the final decision adopting SCE's test year 2006 revenue requirement in A.04-12-014, et al.

## **ATTACHMENT 2**

### **PROTECTIVE ORDER**

1. This Protective Order shall govern the use by Southern California Edison Company (SCE) or any of its employees, representatives or agents and representatives of the Commission's Office of Ratepayer Advocates (ORA) of all protected materials as defined herein. "Protected Materials" include confidential written or oral communications from the staff of the Commission's Energy Division or ALJ Division, or any Commissioner or Commissioner's advisor, which reflect or relate to the contents of the draft proposed decision or any alternate decision prior to the public issuance of a final decision in A.04-12-014 et al. adopting SCE's Test Year 2006 revenue requirement. "Protected Materials" also include all computer hardware, software or media, notes, worksheets, workpapers, computer inputs, computer outputs, or any other documents which relate to these written or oral communications from the Energy Division staff.
2. The term "Certificate of Compliance" shall mean the certificate annexed hereto by which SCE employees, representatives or agents, and/or representatives of ORA who will be granted access to Protected Materials, shall certify their understanding that access to Protected Materials is provided pursuant to the terms and restrictions of this Protective Order, and that they have read the Protective Order and agree to be bound by it. No SCE employee, representative or agent, or representative of ORA will be permitted access to any Protected Materials without first having signed and dated a Certificate of Compliance. Prior to such access, SCE and ORA shall provide the Commission's Energy Division with the original of each Certificate of Compliance that has been executed, and shall serve a copy of each Certificate of Compliance on all parties on the Commission's service list in this proceeding.
3. The term "Reviewing Representative" shall mean each SCE employee, representative or agent, and representative of ORA who has signed a Certificate of Compliance and been granted access to the Protected Materials. Each Reviewing Representative shall treat as confidential the Protected Materials and shall not disclose in any manner any information contained in or relating to the Protected Materials to any person, except another Reviewing Representative or an employee of the Commission involved in the decision-

making process in this proceeding (excluding Office of Ratepayer Advocates' employees not having signed the certificate of compliance with the Protective Order), until after issuance of a final decision in A.04-12-014 et al. adopting SCE's Test Year 2006 revenue requirement.

4. A supervisor in SCE management or ORA management, who has authority over each Reviewing Representative, shall instruct each Reviewing Representative to read and agree to comply with this Protective Order. The supervisor in SCE management or ORA management shall also take all reasonable and necessary steps to ensure that nobody at SCE or ORA attempts to learn from any Reviewing Representative the contents of any Protected Materials prior to the issuance of the final decision in Phase 1 of A.04-12-014 et al. adopting SCE's Test Year 2006 revenue requirement.
5. Any violation of this Protective Order shall constitute a violation of an order of the Commission.
